CAREER OBJECTIVE:

I am a recent graduate from University of the Sunshine Coast looking for a **WEB DEVELOPER** position where I can apply my knowledge in development, designing, and programming of dynamic, interactive, and database driven websites, as well as participate in requirement analysis and technical management.

SKILLS:

Programming:

- **Modern JS** development experience.
- **HTML/CSS** experience.
- Working experience with CSS framework **Bootstrap.**
- Working experience with **Mobile Friendly** design as well as with grid layout (**Flexbox).**
- Working experience with **JavaScript Front-End Framework (Angular and React).**
- Web development skills in **jQuery.**
- Knowledge of backend with **Node**.
- Working experience with the **Express web-application** framework.
- Experience with the **Postgres Database** as well as **SQL** database.
- Familiar with the source code management tools - **Git**

Personal:

- Can communicate and interact with others easily.
- Have knack for problem-solving.
- Possess good experience with working under pressure.
- Team player.

EXPERIENCE:

Junior Developer, ZippyCrowd, St. Kilda, Victoria.

Nov 2021 - PRESENT

I have been volunteering as a junior web developer at ZippyCrowd.

- Collaborated with UI and UX personnel to develop friendly and usable website using HTML, CSS, JavaScript, and Front-end framework (ANGULAR).
- Worked successfully with diverse group of co-workers to accomplish goals and address issues related to our products and services.

- Determined job priorities for multiple projects and communicated sequencing, priorities, and timelines to entire team.
- Participated in team meetings and provided input on deadlines, designs, and enhancements.
- Assisted internal staff with troubleshooting to quickly resolve software issues.

🎓 EDUCATION AND FURTHER TRAINING:

Introduction to Databases and SQL, Raspberry Pi Foundation, online
SEP 2021 - OCT 2021
I have completed the online course provided by the Raspberry Pi foundation where I got to learn the practical use of the databases and SQL databases

Web Development Bootcamp, INCO Academy, online.
AUG 2021 – OCT 2021
I have completed 3 months web development bootcamp which was fully funded. During the bootcamp I explored my knowledge of HTML, CSS, Bootstrap, node JS, Express JS, Postgres database, jQuery. The course was oriented towards the full-stack web development. I did different projects during the journey.

Master of information and communication technology, University of the Sunshine Coast (ATMC Campus-Melbourne), Queensland, Australia.
NOV 2019 – JUL 2021
I have completed my 2 years post graduate program from the university of the sunshine coast to enhance my further knowledge in the if IT, where I learnt different development and the managerial skills that is required in the field of IT. I was involved in the different Academic Projects during my post graduate journey.

Bachelor's in Computer Engineering, Kantipur Engineering College, Dhapakhel, Nepal.
2014 – 2018
I have completed my 4 years undergraduate program from Kantipur Engineering college which is one of the affiliation colleges of Tribhuvan University located in Nepal. During the journey I learnt all the basic knowledge and information that a personal is required to design computer hardware and software. The course was quite more oriented to the software development with different practical project and the assignments.

💼 PROJECTS:

- Made a static website for the imaginary coffee shop using **Vanilla HTML, CSS, and JavaScript**. Also implemented the **front-end Validation**.
- Worked on the simple web-app that allows to create the schedules and display all the schedules implementing the **Postgres Database** and **Node JS (express)**.
- Built a web app that uses the **movie database API** and load the movies dynamically with the search functionality and allows the logged in users only to rate the movies. (Used **Express session** for the Authentication)
- I have also tried other projects as part of my training and practices that I have uploaded to my GitHub account.
